CUNNINGHAM'S GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

In accordance with your Board's April 14, 2009 motion, we are informing your Board of the results of a group home compliance review.

Cunningham's Group Home is located in the 2nd Supervisorial District and provides services to Los Angeles County Department of Children and Family Services' (DCFS) foster youth. According to the agency's program statement, its goal is to "increase children's independent adaptive skills and decrease their maladaptive behaviors in order to gain the skills necessary for successful adult adjustment." Cunningham's Group Home is licensed to serve a capacity of six males, ages 11 through 17.

The Out-of-Home Care Management Division (OHCMD) conducted a review of Cunningham's Group Home in November 2010, at which time the agency had one six-bed site and five placed DCFS children. For purposes of this review, three children were interviewed; two children were not available for the interview due to visiting relatives for the holidays, however all five children's case files were reviewed. The children's overall average length of placement was eight months and their average age was 16. Seven staff files were reviewed for compliance with Title 22 regulations and contract requirements.

None of the placed children were on psychotropic medication.

SCOPE OF REVIEW

The purpose of this review was to assess Cunningham's Group Homes' compliance with the contract and State regulations. The visit included a review of the agency's program statement, administrative internal policies and procedures, three placed

children's case files, and a random sampling of personnel files. A visit was made to the facility to assess the quality of care and supervision provided to children and we conducted interviews with the children to assess the care and services they were receiving.

A copy of this report has been sent to the Auditor-Controller (A-C) and Community Care Licensing (CCL).

SUMMARY

Generally, Cunningham's Group Home was providing services as outlined in its program statement. The children interviewed stated that they were satisfied with the services they were receiving. Additionally, the direct care staff stated that they were pleased with the support they receive from the administrative staff.

At the time of our review, we noted some documentation deficiencies. The Group Home needed to develop comprehensive Needs and Services Plans (NSP). In addition, the children's rooms needed to be organized to reflect a home-like environment. Also, children expressed needing assistance in creating and updating their life books.

During the exit conference, Beatrice Cunningham, Executive Director of Cunningham's Group Home, indicated that the agency would make corrections to improve its compliance with regulations and the Foster Care Agreement.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Children's bedrooms were not well maintained and did not reflect a home-like environment. The children's bedrooms did not have age-appropriate decorations.
- Five NSPs were not comprehensive; some included areas that were inaccurately addressed in the quarterly report area, while other areas were left blank. The dates for the periods reviewed were inaccurate, and some goal areas included information on the child's progress that belonged in the quarterly report area instead. One NSP was confusing and included multiple case plan goals. This was discussed with the Executive Director who stated that she would instruct her staff to review and address the identified deficient areas and include accurate information in the NSPs.
- Staff needed to encourage and assist children in creating and updating their life books/photo albums.

A detailed report of our findings is attached.

EXIT CONFERENCE

The following are highlights from the exit conference held on November 22, 2010.

In attendance:

Beatrice Cunningham, Executive Director of Cunningham's Group Home, and Lilia Gonzalez, Monitor, DCFS OHCMD.

Highlights:

The Executive Director was in agreement with our findings and recommendations. She stated that she would instruct her staff to use a model/teach approach to assist children in maintaining their rooms in a neat, organized fashion and include age-appropriate decorations. She also stated that the Group Home keeps photo albums of the children but she would make sure that staff would assist children in creating their personalized life books. The Executive Director also committed to ensuring that the issues with the NSPs are corrected and that all the findings would be addressed in the Corrective Action Plan (CAP) submitted.

Cunningham's Group Home was provided with a draft copy of the report; the Executive Director stated that she agreed with the report and had no further responses to provide. As agreed, Cunningham's Group Home submitted a timely approved written CAP, which addressed each recommendation noted in this compliance report. The CAP is attached.

As noted in the monitoring protocol, a follow up visit will be conducted to address the provider's approved CAP and assess for full implementation of the recommendations. If you have any questions, your staff may contact Aldo Marin, Board Relations Manager, at (213) 351-5530.

CUNNINGHAM'S GROUP HOME PROGRAM CONTRACT COMPLIANCE MONITORING REVIEW

The following report is based on a "point in time" monitoring visit and addresses findings noted during the November 2010 monitoring review.

CONTRACTUAL COMPLIANCE

Based on our review of five children's files and seven staff files and/or documentation from the provider, Cunningham's Group Home was in full compliance with six of nine sections of our Contract Compliance review: Licensure/Contract Requirements; Educational and Emancipation Services; Recreation and Activities; Children's Health-Related Services, Including Psychotropic Medication; Personal Rights and Personnel Records (including Staff Qualifications, Staffing Ratios, Criminal Clearances and Training). The following report details the results of our review:

FACILITY AND ENVIRONMENT

Based on our review of Cunningham's Group Home, review of five children's case files and/or documentation from the provider, Cunningham's Group Home was in full compliance with five of the six elements reviewed in the area of the Facility and Environment.

During the visit, we noted that the Group Home exteriors were well maintained and that the Group Home had sufficient age appropriate recreational equipment. The Group Home also had an appropriate quantity and quality of reading materials, educational resources and supplies including computers that were readily available to children. We also noticed an adequate amount of perishable and non-perishable foods.

However, we noticed that the children's bedrooms generally had empty walls and lacked child-appropriate decorations reflective of a home-like environment.

Recommendation:

Cunningham's Group Home management shall ensure that:

1. Children's bedrooms are well maintained.

PROGRAM SERVICES

Based on our review of five children's case files and/or documentation from the provider, Cunningham's Group Home fully complied with seven of eight elements reviewed in the area of Program Services.

We noted that placed children met the Group Home's population criteria as outlined in its program statement.

We noted that the Group Home had documentation indicating that the CSWs' authorization to implement Needs and Services Plans (NSP) were obtained and that children participated in the development of the NSPs. There was also documentation indicating that the NSPs were implemented and discussed with the Group Home staff and that the CSWs were contacted on a monthly basis.

However, we noted that the NSPs were not comprehensive; some areas needed additional information or included inaccurate information. Of the 10 NSPs reviewed, five were not comprehensive. Of the five initial NSPs reviewed, two included inaccurate timeframes for the periods of review. Initial NSPs included boxes that were inappropriately checked and information pertaining to updated NSPs, and in one case, included multiple permanency goals. Of the five updated NSPs reviewed, three were not comprehensive, confusing and/or missing information such as a child's refusal of medication. Some NSPs had inaccurate permanency case plan goals and included information pertaining to the quarterly report area in the identified goal area. In addition, some goals were not appropriate and needed to be more specific, realistic, and measurable. This was discussed with Executive Director who stated that she would instruct her staff to review and address the identified deficient areas and include accurate information in the NSPs.

Recommendation:

Cunningham's Group Home management shall ensure that:

2. comprehensive NSPs are developed.

CHILDREN'S CLOTHING AND ALLOWANCE

Based on our review of five children's files and/or documentation from the provider, Cunningham's Group Home fully complied with seven of eight elements reviewed in the area of Children's Clothing and Allowance.

Children expressed that they received appropriate clothing allowances and that they were involved in the selection of their clothes. Children also expressed that they were always provided with minimum monetary weekly allowances and were free to manage their own allowances and/or earnings as noted in the Foster Youth Bill of Rights.

However, we noted that while the Group Home made efforts to have photo albums for the children, three children stated that they did not have their own personal life book/photo album.

Recommendation:

Cunningham's Group Home management shall ensure that:

3. Staff encourages and assists children in creating and updating life books/photo albums.

PRIOR YEAR FOLLOW-UP FROM COMPLIANCE REPORT

Objective

The prior monitoring report contained two outstanding recommendations. Cunningham's Group Home was to ensure that eligible children are enrolled in the Youth Development Program and ensure that children who participate in a Special Education Program have a current Individualized Educational Plan (IEP) in their file. The recommendations were fully implemented.
